CUTTING AND COMFORT INNOVATION

Short, precise blade: cuts to 0.3 mm !

Also lets you mix techniques and use it for finishing.

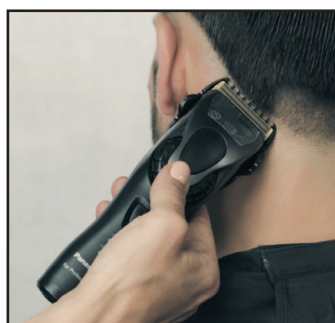

Incomparable soft blades for working with your clients in total confidence.

The Fading blade was designed to avoid all cutting risk. Precision, durability and cutting comfort thanks to the new coating of DLC (Diamond Like Carbon reinforced with powdered steel).

EASY TO USE

- Create fades with just one hand !
- Adjustment Control Dial with cutting height from 0.3 to 1.5 mm in increments of 0.3 mm.
- Unique 1.5 mm attachment facilitates layering
- 3 Double attachments (3/4 mm ; 6/9 mm ; 12/15 mm) for 6 cutting lengths.

PANASONIC'S MOST ERGONOMIC CLIPPER

Ultra-light and manageable, only **245 grams**, an undeniable asset to prevent RSI (repetitive strain injuries).

CONSTANT CONTROL LINEAR MOTOR
